

QUALITY POLICY

Biomedical Structures, LLC (BMS) is committed to consistently meeting and exceeding the quality expectations of our customers through a process of understanding the material and structural requirements of the Life Sciences industries and manufacturing products in accordance with these requirements in a timely manner.

The employees of BMS maintain the effectiveness of the established quality system by performing our jobs in compliance with ISO 13485 and 21 CFR Part 820. We strive to make improvements in all facets of the business to assure the long term viability of BMS.
